## 2 FIELD GOALS GIVE AGGIES A 6 TO 6 TIE

Missouri Fights Way Over  
for Touchdown in Final  
Period.

### TIGER DEFENSE GOOD

Manhattan Relies on Kicking  
Game, With Houston  
Starring.

(By Special Correspondent)

MANHATTAN, Kansas, Oct. 11.—The educated toe of Houston, star kicker of the Kansas Aggie eleven, cheated the Missouri Tigers of better than a tie at Manhattan today. The score was 6 to 6. Although the Tigers were superior to the opponents in carrying the ball, two field goals by the Aggie star, both from the 40-yard line, staved off defeat from the Kansas aggregation.

Missouri's score came in the final period, when the Tigers, made desperate by the Aggies' 6 to 0 lead, fought their way over the goal for a touchdown. A chance for a victory was lost when Missouri failed to kick goal. The Aggies' scores came in the second and third quarters. Each time it was Houston, standing on the Tigers' 40-yard line, who drop-kicked goal. It was the punting game, with Houston again figuring for the Kansas team, that kept the ball of Aggie territory and gave Houston the chance to score from the field.

Despite heavy clouds all day Friday, there was no rain here. Today was clear, an ideal football day, with the gridiron in perfect condition.

### First Quarter Punting Duel.

The first quarter was a punting duel between "Chuck" Lewis, Missouri half-back, and Houston, the star kicker of the Aggie eleven. Both kickers tried for goals from the field in this quarter, but neither succeeded. The quarter ended without a score.

At the opening of the second quarter Houston, standing on Missouri's 40-yard line, booted the ball between the goal posts for the first score of the game. Neither team scored during the rest of the quarter, and the half ended with the score Kansas Aggies 3, Missouri 0.

Following Houston's score, the Tigers, by a series of line plunges, carried the ball to the Aggies' 35-yard line. There Lewis tried a goal from placement, but his attempt failed. Later Houston again tried a field goal, but failed. A 20-yard run by Edwards featured this period.

### Aggies Fail to Make Downs.

During the first half the Kansas team failed to make first down a single time. They relied entirely on the kicking game, placing great dependence on Houston's boot. The Tigers made first down twice. Lewis did the punting for Missouri and held a slight advantage over the Aggie kicker. The forward pass was used successfully only once, for a 5-yard gain, Lewis to Stankowski.

Between the halves the freshmen of the Aggie school paraded on the field, with a goal labelled "Missouri."

Houston kicked his second field goal after the opening of the third quarter, again making the kick from the Tigers' 40-yard line. The Aggies got their chance for this score after Hines, with a 20-yard run, and Burton had carried the ball beyond the center of the field.

### Tigers Recover Aggie Fumble.

After the kick-off, Viner recovered an Aggie fumble in the middle of the field, but the Tigers failed to pierce the Aggie defence, and the Aggies took the ball on downs. An exchange of punts followed. Then a fumble of Gallagher gave Missouri the ball on the Aggies' 15-yard line. A series of line plunges brought the ball to the 10-yard line, where the quarter ended with the ball in Missouri's possession. Score, Aggies 6, Missouri 0.

## WILL SEIZE LIQUOR

Palmer Prepares to Act on  
Prohibition Enforcement  
Measures.

(By United Press.)

WASHINGTON, Oct. 11.—Wholesale raids on liquor dealers are being planned by the government today. Within ten days, the prohibition enforcement legislation will probably become a law. This means that the sale of liquor containing more than one-half of 1 per cent of alcohol is illegal.

The prohibition enforcement law puts in the hands of Attorney-General Palmer the power which he has been asking to enable him to handle the sale of liquor.

Reports on liquor sales are being made by the government agencies now. When President Wilson signs the bill, raids are expected to start. In case the President does not sign within ten days the measure becomes law.

It is known that in many cities all sorts of liquor is being sold openly. Beer of 2.75 per cent is being sold everywhere, according to statistics compiled by the department.

## PLANS CELEBRATION FOR ARMISTICE DAY

Commercial Club Intends to  
Observe November 11  
With Big Pageant.

### TO HONOR SOLDIERS

Floats Promised for Parade  
in Which 2,000 Are Ex-  
pected to March.

Armistice Day, November 11, will be fittingly observed in Columbia this year. Plans now being prepared by the Commercial Club for an elaborate parade insure that the day on which, a year ago, the German armies accepted their inevitable defeat will be appropriately celebrated as Victory Day here.

Fully 2,000 persons are expected to parade on that day, including members of the University R. O. T. C., numbering over 1,200, the cadet band of the University, students of Stephens and Christian Colleges and Columbia High School, the Columbia municipal band, and a large body from the local lodge of Elks.

Equipment costing about \$150,000, which is at the disposal of the R. O. T. C. artillery unit here, will be used in the parade.

Three hundred and forty members of the local Elks will parade, headed by seventy of their members, former service men, in military uniform. The Elks will also furnish a band or a drum corps for the parade.

Several floats, including one of Columbia and one designating victory, will appear in the parade. Many other features will be added, including a pageant which will be held in addition to the parade.

It is the intention of the people of Columbia to show their appreciation to Columbia and Boone County soldiers for what they did in helping win the war.

The program for the celebration is in charge of Dr. Walter Miller and the pageant to be held in connection with the parade is in charge of the community council.

## RIOT PLANS BLOCKED

I. W. W. Attempts to Incite  
Negroes to Violence After  
St. Louis Raid.

(By United Press.)

ST. LOUIS, Oct. 11.—Attempts to incite negroes to riot here and in Texas are believed to have been frustrated with the arrest of L. F. Whitman, negro, and eleven white men, alleged to be I. W. W. agitators.

In the raid police seized large quantities of the I. W. W. literature which bemoaned the alleged ill-treatment of negroes and declared that there was one organization which admitted negroes on equal basis with white men and that was the I. W. W.

### REFUSE TO UNLOAD SHIPS

Longshoremen Won't Comply With  
War Department's Request.

(By United Press.)

NEW YORK, Oct. 11.—Striking Longshoremen today flatly refused to comply with the War Department's request that six army transports now here be unloaded.

The decision was reached after a conference of the Longshoremen and the United States Shipping Board, because if the men complied with the request of the United States Shipping Board the commercial companies would "take advantage of the situation."

The strike includes 50,000 men.

## SENATE EXAMINES STRIKE WITNESSES

Steel Men Do Not Resort to  
Violence, Pittsburgh  
Mayor Testifies.

### FOREIGNERS BLAMED

Investigation Reveals Need  
of Laws to Promote  
Americanization.

(By United Press.)

PITTSBURGH, Oct. 11.—"We are neutral in this strike," Mayor E. V. Babcock of Pittsburgh told the Senate investigating committee today. "Lack of violence has been due largely to the conduct of the strikers themselves," he said.

Residents appealed to the authorities to prevent meetings, fearing outbreaks of violence.

"It is not our policy to prohibit meetings," Mayor Babcock told the committee.

### Former Miner Charges Cruelties.

Declaring that strikers had been locked in cellars and told they would be shot at sunrise, W. F. Feeny, former member of the state legislature and at one time a coal miner, told in detail a tale of alleged cruelty at the hearing of the committee. A score of witnesses were heard during the day.

Attorney W. B. Rubin, general counsel to the strikers, declared that men testifying against the corporation would be blacklisted. For this reason he desired the identity of witnesses to be kept secret. He reported raids on steel workers by citizens of a small town near Pittsburgh. He said citizens had been given guns and drilled and that riff-raff had been called in to attack the strikers.

### Senators Need Interpreters.

Foreign labor must be Americanized is the first conclusion drawn by Senator Kenyon. Efforts to pass laws which will enable every foreigner to become Americanized will be started at once upon the committee's return to Washington. The senators were surprised at the isolation of the foreigners in the steel district. They visited some districts where the English language was so little understood that they had to call on an interpreter.

### Fight on Labor Reesolution Continues.

(By United Press.)

WASHINGTON, Oct. 11.—The fight over labor's resolutions for arbitration of the steel strike was in progress today in the central committee of fifteen of the national industrial conference.

To give this committee an opportunity to decide whether the resolution shall be favorably reported to the full conference the larger body adjourned until Tuesday.

After having been directed to farmers' demands by their delegates demand for larger representation, the children's bureau of the Labor Department today issued a statement urging laws regulating child labor on the farm.

## MUST REMAIN IN BED

President Continues to Im-  
prove But Physicians Say  
He Is Far From Well.

(By United Press.)

WASHINGTON, Oct. 11.—President Wilson will be forced to remain in bed for "an extended period" it was announced at the White House this afternoon.

Doctor Grayson made this announcement in his regular daily bulletin on the President's condition. The bulletin said: "The President shows signs of continued improvement, but his condition is such as to necessitate his remaining in bed for an extended period." The bulletin was signed by Grayson, Ruffin and Stitt.

The announcement was delayed until 12:45 o'clock this afternoon on account of the extended conference of the President's physicians. The statement today came as a surprise, in as much as his improvement had created the impression that Wilson was so improved he could leave his bed and take his automobile rides again.

During the last forty-eight hours he has been taking slight part in the affairs of state getting his information from Doctor Grayson. Chairman Franklin K. Lane of the national industrial conference said he was informed that Wilson would be able to make an appearance at the last meetings of the conference.

## SEWER BONDS ISSUED

Mayor Gordon Receives No-  
tice of Investment Com-  
pany's Approval.

Columbia's sewer bond issue of \$128,000 has been issued, according to a telegram received this morning by Mayor Gordon from the William R. Compton Investment Company of St. Louis. The bonds were approved by Wood and Oakley, bonding lawyers of Chicago. They are to be sent to Columbia in a few days.

The William R. Compton Company was the only one which agreed to leave the legality of the issue to Wood and Oakley. All of the other companies which bid wanted to leave the legality to Charles and Rutherford, a law firm in St. Louis which has turned down several similar issues.

The contract was held up on account of a disagreement between the City Council and the investment company as to whether the \$128,000 would be placed in Columbia or St. Louis banks. Later it was agreed that the matter would be optional with the City Council. Under the present contract the money for the bonds may be kept either in the banks here or in St. Louis. It will draw 3 per cent interest in either place.
